

Monday's Meeting: Celebrating World Polio Day: Dr. Debra Houry, former CDC Chief Medical Director

Rotary International has been at the center of the global crusade against polio since launching its PolioPlus program in 1985, helping reduce cases worldwide by over 99.9% alongside international partners.

Attending this World Polio Day event with former CDC Chief Medical Director Dr. Debra Houry offers us a vital opportunity to reconnect with that proud legacy and gain expert insights into the final stretch of eradication.

With wild poliovirus now endemic in only two countries, the finish line is within reach—making continued awareness, advocacy, and support critical.

As the Executive Director of Iris Breast Cancer Rehabilitation, Liz shines a light on an often-overlooked aspect of survivorship: the critical need for post-treatment rehabilitation, physical recovery, and equitable access to care for all survivors.

Her article is a moving reminder of the work still needed to support individuals and families navigating life after cancer, embodying our Rotary spirit of Service Above Self.

Please take a few minutes to read and share Liz's insightful piece!

Also, Iris has an anonymous \$50,000 matching gift for all donations received this month. If anyone feels compelled to give, it makes a huge difference for us, especially supporting local survivors.
